

SOUNDMASK®

SAFETY AND BENEFITS OF OUR SYSTEMS

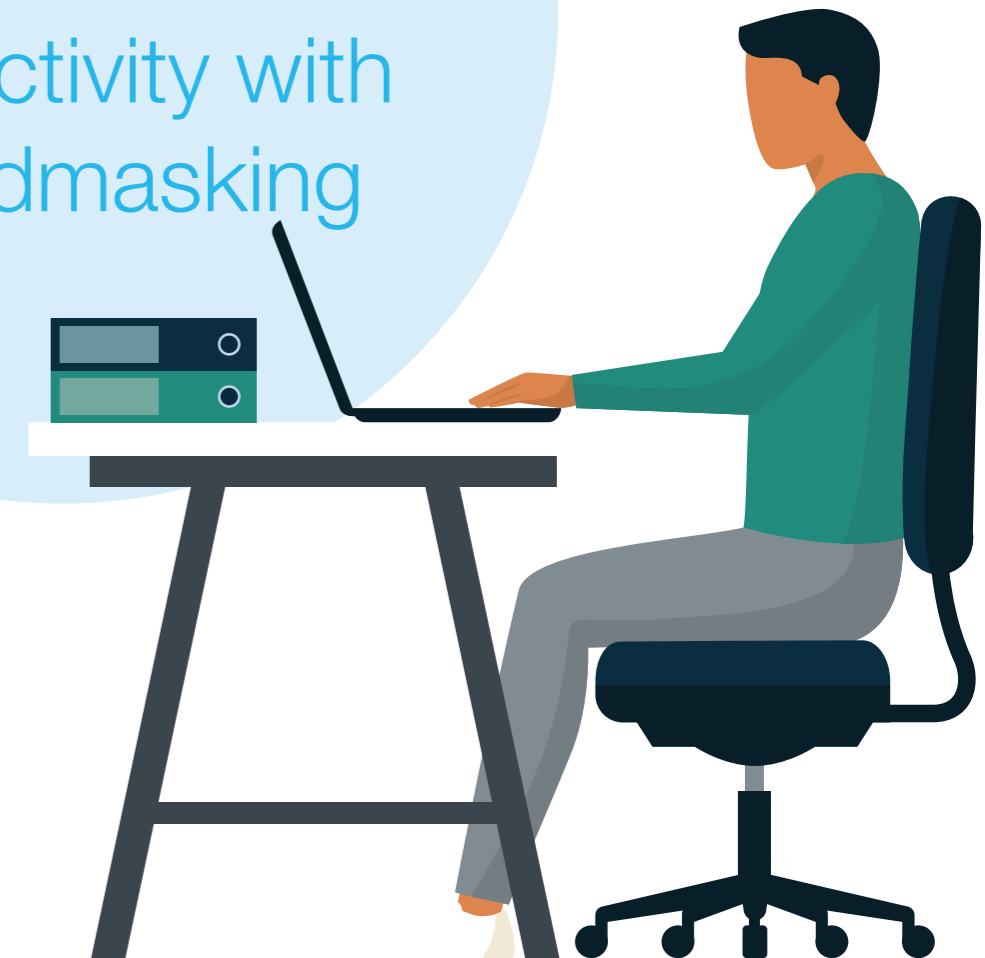

Soundmask creates private, comfortable acoustic spaces using unique sound masking technology

60%

of workers are dissatisfied with the level of noise and the lack of auditory privacy in their workspace.

Over 20 independent scientific studies have confirmed the impact of privacy on increasing employee efficiency.

Up to **25%** increase in productivity with soundmasking

Soundmask systems are certified safe for you, your clients and workers, including children and babies

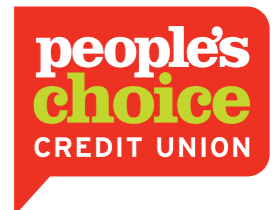

Over **50** years of sound masking safety data available

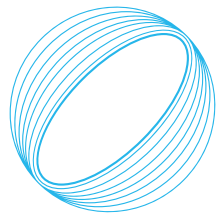

Soundmask's systems are so safe that they do not interfere with even the sensitive VI-HSP newborn hearing screening instruments.

100% compliant with worldwide safety standards including in healthcare

Join thousands of governments, private companies and non-profits who trust Soundmask to protect their speech privacy
