

CASE STUDY JUSTICE ACCOMMODATION EXPANSION PROGRAMME

The Department of Justice and Regulation is expanding its community correction facilities throughout Victoria.

These facilities have numerous interview rooms, meeting rooms and program rooms where sensitive information is exchanged and confidential conversations take place.

The Department specified Soundmask's systems to create confidential environments for the interview rooms and waiting areas, and some other areas including program rooms and conference rooms.

This expansion has taken place concurrently, requiring Soundmask to undertake works at different sites and on different timelines, both in metro and regional locations.

Soundmask worked with each of the builders involved to complete the projects on time and on budget.

Locations included Bairnsdale, Cranbourne, Derimut, Echuca, Horsham, Pakenham, Reservoir, Ringwood, Roxburgh Park, Sale, South Morang, Sunshine, Warragul, Warrnambool, Wodonga, Wonthaggi.
